

TEXAS APARTMENT ASSOCIATION

Legislative Housing Program

2026-2027 Austin Housing Guide

Dear Legislators and Staff:

Thank you for your service to the state of Texas.

Texas Apartment Association's Legislative Housing Program has helped countless members and their staff locate apartments in Austin for the Legislative Session over the years, and we look forward to assisting you once more!

Included in this packet you will find apartments in the Austin area that offer rental benefits and furniture-related companies with special offers. We've also included contact information for an apartment locator, Lisa Waltke with Four22 Realty, who can make your experience easier. Working with a locator is a free service to you and simplifies the apartment search process. Locators assist with searching for available apartment homes that are specific to your needs and often find available properties that may not be listed or are high in demand.

Each property in TAA's Legislative Housing Program has agreed to:

- offer an initial lease term for 5-6 months
- waive mandatory advance notice on move-out due to the short lead time you will have in knowing whether special sessions will be called
- allow extensions of the lease to cover special sessions should they be called at the close of the regular session.

Please note that the rent ranges may fluctuate with the market. Refer to the property website and leasing office for more information.

Please don't hesitate to call on us if we may be of any help to you or your staff.

WELCOME TO AUSTIN!

A dark, monochromatic photograph of the Illinois State Capitol building. The building is a large, classical-style structure with a prominent central dome topped by a statue. The facade features numerous windows and columns. In the foreground, there is a low wall with a decorative metal fence. The sky is filled with dramatic, cloudy patterns. A large, dark diagonal shape cuts across the image from the top-left corner towards the bottom-right, serving as a background for the text.

PLEASE NOTE

All properties are listed by
